

## **Spotlight On Our Employees: Cecilia Espinoza**

*-Brought to you by the Annual Employee Appreciation Fund Committee -*

Cecilia Espinoza was born as the eldest of two children in her family. Cecilia and her brother, Frank Jr., were both born in Mexico. Maria and Frank Sr. decided to move to Salinas, California after both kids were born. Her father and her mother both currently run their own businesses in the welding business and selling cosmetics respectively. Her brother works as a truck dispatcher.

Cecilia has an 11 year old son Gerardo or “Junny” as her friends and family like to call him. Junny loves to play soccer and the piano. Whenever Cecilia is off from work she loves to spend time with Junny doing just about anything! From driving all the way down to LA and spending time in Disney Land to going up to San Jose and San Fransico visiting various parks along the way, they always find a way and a place to have fun together!

Cecilia has been working at Canterbury Woods since July of last year. She is a CNA and helps residents in Jade Court, Personal Care, and the Medical Center. Although she is almost done with a dental assistant program, she still wants to go into nursing because she really enjoys helping people the way she is now. Cecilia would like the residents to know that she is very “...thankful and grateful to be a part of the large family of residents and staff at Canterbury Woods, especially the Morris family for helping me to further my education with their scholarship program!”
